Garden Club News

Greetings to all you gardeners. Mother Nature has not been so kind to us recently, but we've still survived to produce beautiful gardens, as anyone will notice walking around the park.

Our July meeting was to present the winners of this year's competitions.

Congratulations to these members on their hard work.

Our members spent the rest of the meeting going around looking at these winning gardens to get ideas for themselves next year.

Our next meeting is Monday, August 17th and we will have a guest speaker from Kuhlman's, so make sure you have lots of questions - write them down and we will try to get all the answers.

Accidental Poisoning

Alberta Health Services EMS would like to remind parents about precautions they can take to prevent childhood poisonings. Ingesting medications, prescription, or over-the-counter products, is the leading cause of accidental poisoning in children. Even small amounts of adult medications can be seriously harmful, or even fatal to your child if swallowed. Other causes of poisoning are household products, such as dishwasher tablets and personal care items (mouthwash, nail polish etc).

Medication storage

- Store all medications in a locked container and place in an area inaccessible to children
- Keep medications in their original child-resistant packaging.
- Do not mix multiple medications inside one bottle
- Install child locks on all cabinets, or drawers where medications are stored

Safety tips

- Ensure visitors to your home keep their personal belongings out of children's reach, as they may contain unsafe items
- Take extra precautions with medicines that appeal to children such as chewable vitamins, or flavored cough and cold syrups
- Properly dispose of any medications or toxic household products no longer in use.

Prevention

- Store household products, car supplies, and cosmetics in locked cupboards, or drawers.
- Apply child safety latches to drawers and cabinets, if they are within a child's reach.
- Know and label all plants in and around your home and garden.
- Antifreeze, windshield washer fluid, and pesticides are extremely poisonous. Even small amounts of these can cause serious illness when ingested.
- Poisoning information can be obtained by calling the Poison and Drug Information Service (PADIS) at: 1-800-332-1414.
- **In case of a poisoning emergency, call 9-1-1.**
- Provide the name of the product ingested or, if it is safe to do so, a sample of the substance for EMS to inspect on their arrival.
