Why do People Come to Us? We Know Your Community!

Garden Club News

Greetings fellow gardeners! This winter has been much more pleasant than the last three. It's been nice to be able to enjoy our winter a little more and not stay cooped up inside the entire season. A lot of people start growing things in March. Of course, it is on east-facing windowsills and in heated greenhouses, but there are those among us already nurturing our first petunia seedlings.

If the green bug has bit you too, why not join the Garden Club?

Our next meeting will be March 16th at 6:30 pm at the Community Hall. We are having a speaker in to enlighten us regarding succulent plants. Many of us have succulents inside, and a few of us have experimented outside as well. Our speaker will introduce us to some interesting varieties and show us how to care for succulents properly in our climate.

Our last meeting was our Seedy Monday exchange. Houseplants and seeds were swapped amongst all the members and nobody went home empty handed.

This year the Garden Club will continue to encourage the love of gardening with speakers, crafts and trips. If you love growing things and live in Evergreen, this is a great way to get out of the house, meet neighbours, and do what you love. Whether you have a full-yard obsession or a couple containers from the greenhouse, you will find kindred spirits within the Club. Call Mary at 780-406-5710 and sign up today.

Join the club, meet new friends, share a few laughs...and go home feeling good.

Burns and Scalds

Alberta Health Services EMS responds to a number of emergencies where a young child has sustained severe burns, or scalds. These incidents often occur inside the child's own home. Common causes include: a child accidentally tipping hot liquids onto themselves, touching a hot surface, or making contact with an electrical outlet. Fortunately, incidents such as these can be avoided by taking simple preventative measures.

Degrees of burn

- **1°:** Affects only the top layers of the skin; appears red like a sun burn; discomfort is generally tolerable;
- **2°:** Deeper and much more painful than 1° burns; broken skin or blisters commonly develop;
- **3°:** Severe: the deepest layers of skin and tissue are injured; may appear charred or leathery.

First Aid for burns

- Skin may continue to burn if not aggressively cooled. Immediately douse burns with large amounts of cold water.
- Cover the burn with a sterile dressing, or any clean material to protect from infection;
- Over the counter medications may be used for pain. Adhere to directions given on the label;
- Seek further medical attention from your doctor, as required.

Prevention of burns

- Check the temperature of your hot water tank. Many homes keep hot water temperatures as high as 60°C / 140°F. This temperature will scald a child in just seconds;
- Use placemats instead of tablecloths. Tablecloths can be yanked downward causing hot drinks, or food to spill on a child;
- Turn pot handles to the back of the stove and ensure cords from kettles, slow cookers, and other electrical appliances cannot be reached;
- Avoid picking up a child while holding any hot liquids;
- Ensure electrical outlets are made secure by installing commercially available safety devices that prohibit access.

If you require immediate medical attention for serious burns, call **9-1-1**.

Evergreen Youth Express

Hello, Hello

On behalf of the Gentlemen of Evergreen program!

What a crazy past month we've had: tons of NERF, sports, the winter carnival, our 3rd annual NERF tournament for kids under 12 (which was a huge success), we also attended a basketball tournament at

Eastglen high school to watch Adam- one of the Youth centre staff- coach his team to third place. After which we stuffed

ourselves with donuts and hot chocolate. I really wanted to share something cool with you guys that I feel quite proud about that really exemplifies the mandate of our

program. Tyler Atkinson, who began attending the program when he was 15 has been volunteering and helping out

every Saturday since he turned 18. He's a big help and the boys enjoy his company, sense of humour and leadership. This is exactly what we hope our program is teaching the boys, to be thankful for the incredible Youth Centre and resources that Evergreen offers to its residents and once they have

'graduated' from the program, to give back in whatever way they can! Just a little encouraging of all the great things happening at the youth centre! Don't forget to check out our website at facebook.com/gentlemenofevergreen.

Spring is just around the corner, I'm looking forward to seeing everyone outside and around the neighbourhood again!
