Craft Corner - KIDS

Jolly Elves

All you need are chenille stems, beads, and felt.

What You'll Need

- | | |
|---|----------------------------------|
| ◆ One whole chenille stem and half a stem | ◆ Felt |
| ◆ Small and large beads | ◆ Glue gun and hot melt adhesive |
| ◆ Wooden face bead | ◆ Scissors |
| ◆ Small jingle bell | ◆ Ribbon |

Make It

1. **Hat:** Cut a 1-1/2-inch-diameter semicircle from felt. Wrap the semicircle around from point to point to form a cone, leaving a small opening at the tip; hot-glue to secure.
2. **Scarf:** Cut a 1/2-x-4-inch piece of felt; fringe ends with scissors. Cut a small lengthwise slit about 1 3/4 inches from one end for opposite end of scarf to pass through.
3. **Body:** Bend one chenille stem in half and, in the following order, thread materials over the bent point to about halfway down the stem: large bead for body, face bead, felt hat, small jingle bell. Leave about 3/4 inch above the jingle bell and shape the stem into a loop. Then, starting on opposite ends: Thread 4 small beads onto each leg and bend the ends to form feet. Use the half chenille stem to make arms by centering and twisting around the elf's neck area. Thread 4 small beads onto each arm and bend the ends to form hands. Wrap the scarf around the elf's neck, then thread ribbon through the top loop and hang.

Garden Club News

Greetings fellow gardeners!

The frost has come, and even some snow. The outdoor growing season is over. With heavy hearts, we pull up the annuals that coloured our beds and containers and cut back the perennials to short little stubs in the earth. To help your perennials over-winter, rake your leaves on top of them. This will give the soil fresh nutrients and slightly insulate the plants from the harsh temperatures to come.

Fun fact: You can easily grow celery and romaine lettuce (and a few other things, too, Google it!) by using the end of the one you've bought. When all you have left is the "bottom", put it in water for one day, then plant it in the soil. That's it! Water regularly and soon new little celeries or romaines will start popping up from the middle of the old one. Voila.

Our last meeting was a Halloween craft and costume party on October 23rd.

The creations, as always, were stunning. What a creative bunch we gardeners can be.

Our next meeting is November 20th at the Community Hall at 6:30. We will be "forcing" some bulbs to take home. Come see why the Garden Club has been a fixture in our community for over a decade! Membership is only \$10/year and you'll have something garden-related to do once a month, all year round. From novice to the expert, you are welcome to join us no matter where you are on your journey.

Come grow with us!

Join the club, meet new friends, share a few laughs, and go home feeling good.

Yielding to Emergency Vehicles

Time is the enemy in an emergency. For everyone's safety, it is important for motorists to understand how to correctly yield right of way to emergency vehicles with lights and siren activated. You can help EMS, police, and fire get to the scene quickly and safely by following these rules of the road:

When an emergency vehicle approaches with lights and siren activated:

- If you're in the middle of an intersection when an emergency vehicle approaches with lights and siren activated, safely clear the intersection;
- On a one or two lane road, motorists should move to the right side of the road, slow down, and then stop. Remember to signal;
- On a road with three or more lanes, motorists should move to the nearest side of the road and stop. If driving in the centre lane, move to the right side of the road and stop. Remember to signal;
- Come to a complete stop and wait for the emergency vehicle to pass. Shoulder check for more emergency vehicles (there is often more than one) before re-entering traffic flow. Remember to signal;
- Emergency vehicles might use *any* available road space to maneuver. This could include the shoulders, turning lanes, in order to pass other traffic.

When operating a vehicle:

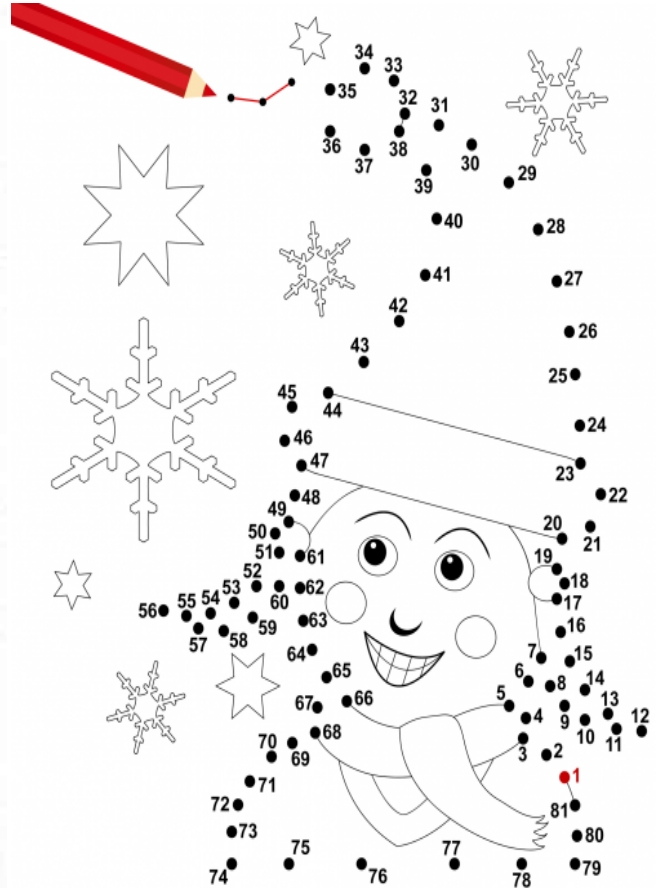

- Drive attentively and defensively at all times. Be cognizant to sirens and be prepared to yield the right of way;
- It is Alberta law for motorists to slow down to at least 60 km/hour (unless a lower speed is posted) when driving past a stopped emergency vehicle. This includes EMS, police, fire, and tow trucks with their lights activated;
- Do not break the rules of the road in order to give right of way to an emergency vehicle. This could include proceeding through a red light, or making an illegal turn. Actions such as these jeopardize all motorists in the area;
- Drivers must place their full attention on the roadway and toward the safe operation of their vehicle at all times. The fine for distracted driving in Alberta is \$287.00;
- Always leave plenty of space between your vehicle and an emergency vehicle, should it be required to stop suddenly.
