A Message from Your EECA Board

September has already come and gone. Thank you to all those that came out to our block party on September 17, 2016. A lot of new memberships were signed! If you didn't get your membership, you can email Denise at memberships@eeeca.ca or call the hall at 780-473-6962 or you can visit Alice at the Youth Centre as she has some of ours. Thank you to our local MLA of Edmonton-Manning Heather Sweet and our Councillor of the great ward 4 Ed Gibbons for coming out to say hi and participate in the festivities. Especially thank you to all those that helped setup and take down and run the show.

September usually means the start of our fall programs. Darts has already had their signup period and their first day of events. Crib starts on Thursday, October 6, 2016. Yes, we got the date wrong in the September newsletter. Sorry.

With the coming of fall, this is also when James is starting to get things in order for the community rink! We are now accepting resumes for rink staff. If you are interested in a supervisor or rink assistant position, please email your resume to facilities@eeeca.ca. Resumes will be accepted till November 6, 2016 only so get them in.

Good news. The farmers almanac is saying a cold and snowy winter so this means we hopefully will get started on the rink earlier. Our goal is the beginning of December but if the weather changes early, James will be out building it up!

Remember that since the weather is getting colder, to dress your kids up in warmer clothes for the morning trip to school. Even though it's warm in the afternoon, it's getting frosty morning!

From all of us on the EECA board, have a wonderful Thanksgiving and a safe Halloween.

Garden Club News

Greetings fellow gardeners!

Brisk mornings, colorful leaves, and withering annuals are here. Yes, it's autumn, that time where we mourn the loss of the season and begin dreaming about next year. To help your yard come back a little better next year, cut back your perennials to about 12" from the ground and heap the stems with leaves and dry grass. It's a lot easier than putting it in bags and it will help to insulate your plants from our harsh winters. There, I've gone and said it. Winter. It's just around the corner, are you ready?

For our last Garden Club meeting we had a speaker on birds. Wild Birds Unlimited provided us with brilliant ideas, catalogues, bird seed and plenty of information. Now we know how to keep those pesky squirrels and cats away from our feeders!

Our next meeting will be October 17th at the community hall. This will be a spoooooooky meeting so make sure to dress in your Hallowe'en finest. Prizes will go to the best dressed! Meet at the Community Hall at 6:30pm for a very haunted and crafty evening. Members will be creating autumn-themed wreaths, and the Garden Club will provide all the tools and materials. Of course, if you have a glue gun, please bring it, as we are always needing just...one....more.

Did you know that you can keep bees in your fridge over the winter? One of our members brought her fridge mason bee colony to show us. Her mason bees will stay in their little pods, in her fridge, until spring, when they will begin to hatch. At that time, she will take them outside to a small beehive where they will begin to pollinate her flowers! We were all genuinely interested and will be following this bee adventure right to the end.

Does learning how to attract local birds or keep bees in your refrigerator sound interesting to you? Then you just may be a Garden Club member at heart! Please join us once a month for some great fellowship, laughs, interesting stories and horticulture.

An annual membership is only \$10. For more information on our Club, please email evergreengreenthumbs@gmail.com.

Join the Club, meet new friends, share a few laughs...and go home feeling good.

Yielding to Emergency Vehicles

Time is the enemy in any emergency. For everyone's safety it is important for motorists to understand how to correctly yield right of way to emergency vehicles with lights and siren activated. You can help EMS, police, and fire get to the scene quickly and safely by following these rules of the road.

When an emergency vehicle approaches with lights and siren activated:

- If you're in the middle of an intersection when an emergency vehicle approaches with lights and siren activated, safely clear the intersection.
- On a one or two lane road, motorists should move to the right side of the road, slow down, and then stop. Remember to signal.
- On a road with three or more lanes, motorists should move to the nearest side of the road and stop. If driving in the centre lane, move to the right side of the road and stop. Remember to signal.
- Come to a complete stop and wait for the emergency vehicle to pass. Shoulder check for more emergency vehicles (there is often more than one!) before re-entering traffic flow. Remember to signal.
- Emergency vehicles might use *any* available road space to maneuver. This could include the shoulders or left hand turning lanes in order to pass other traffic.

When operating a vehicle:

- Drive attentively and defensively at all times. Be cognizant to sirens and be prepared to yield the right of way.
- It is Alberta law for motorists to slow down to at least 60 km/hour (unless a lower speed is posted) when driving past a stopped emergency vehicle. This includes EMS, police, fire, and tow trucks with their lights activated.
- Do not break the rules of the road in order to give right of way to an emergency vehicle. This could include proceeding through a red light or making an illegal turn. Actions such as these jeopardize all motorists in the area.
- Drivers must place their full attention on the roadway and toward the safe operation of their vehicle at all times. The fine for distracted driving in Alberta is \$287.00.
- Always leave plenty of space between your vehicle and an emergency vehicle should it be required to stop suddenly.
